PROFILE

Self-driven junior developer, currently on a gap year before enrolling into an ECE program, with a broad technical foundation spanning desktop application development, backend scripting, Linux systems administration, and web technologies. Passionate about building real-world tools, from Python desktop apps handling fiscal invoice management to home automation server infrastructure. Strong communicator in English and Serbian, comfortable working independently or in a team.

TECHNICAL SKILLS

Languages: C, Python, JavaScript, HTML, CSS, SQL	Frameworks / Libs: CustomTkinter, React (basic), Node.js (basic)
Systems & DevOps: Linux (Debian), Docker, Git, Bash/Terminal	Desktop: Windows app dev, Python desktop apps, PyInstaller
Tools & Apps: MS Office / Excel (advanced), Git/GitHub, Docker	Other: Adobe Lightroom (advanced), Photoshop, After Effects, Autodesk Fusion (basic)
Low-level: AVR C (basic), ARM64 Assembly (basic)	Languages: Serbian/Croatian (native), English (C1)

PROJECTS

Računi - Invoice Management Desktop App 2025 – Present

Personal Project | Python, CustomTkinter, Excel, Web Scraping

- Built a Windows desktop application for managing Serbian fiscal invoices (PFR system)
- Implemented web scraping from purs.gov.rs to automate invoice data retrieval
- Features include Excel export, invoice archiving, and image capture of print previews
- Deployed via PyInstaller with GitHub Actions CI/CD pipeline for Windows builds
- Developed and tested cross-platform using macOS and a Windows VM via Parallels

Home Server & Smart Home Automation 2025 – Present

Personal Project | Debian Linux, Docker, Home Assistant

- Set up and maintain a Debian-based home server running Home Assistant via Docker
- Configured container networking, persistent volumes, and service orchestration
- Xiaomi Mi Home device integration and regional API compatibility

Symptom Tracker — iOS App 2024 – 2025

Personal Project | Swift / iOS

- Developed a basic iOS mobile application for tracking personal health symptoms
- Implemented local data persistence and a clean, minimal UI

WORK EXPERIENCE

Food Bank Volunteer / Student Worker Aug 2025 – Dec 2025

LaSalle University — Philadelphia, PA, USA

- Supported food bank operations as part of university community engagement
- Developed teamwork, time management, and communication skills in an international environment

EDUCATION

LaSalle University, Philadelphia, PA, USA Aug 2025 – Dec 2025
Semester Exchange — Accounting Program

Elitna Ekonomska Škola, Novi Sad 2023 – 2025
Ekonomski Tehničar (Economics Technician)

Tehnička Škola Ivan Šarić, Subotica 2021 – 2023
Elektrotehničar Informatičkih Tehnologija (IT Electrical Technician)
